NEBL

Michael Rem, 2017

Type Flowerpot

Variant Big

Colours Black or Grey

Nebl flowerpot is an intuitive and innovative flowerpot, that salutes unity and simplicity. Nebel is the German word for “fog” and this exact meteorological phenomenon is the main source of inspiration for designer Micheal Rem.

Nebl flowerpot is a planter with character. The distinctive design and the matte finish of the glass adds an exclusiveness and tactility to Nebl, that makes it hard not to get intrigued.

Nebl flowerpot consists of two parts: A ceramic base in which the plant is placed, and a frosted glass that is placed on the base.
